

Coconut Oil

- **Deep, lasting moisture**

Coconut oil helps reduce moisture loss by forming a protective barrier on the skin, making it especially beneficial for dry or rough areas

- **Naturally rich in fatty acids**

High in lauric acid and other skin-supporting fats, coconut oil helps nourish and soften skin while supporting its natural barrier

- **Supports gentle cleansing**

In soaps and washes, coconut oil contributes to a creamy lather that effectively cleans without harshness when properly balanced in a formula

- **Naturally antimicrobial**

Lauric acid gives coconut oil natural antibacterial properties, helping support skin comfort during everyday use

- **Simple, familiar, and time-tested**

Long used in traditional skincare, coconut oil offers dependable performance with minimal processing

Straightforward and dependable, coconut oil brings moisture, protection, and comfort—just the way nature intended.
